MultiTrans 7 Patch 7.0.22347.1_7.0.23073.1

New Features

(79632, 79634) A new REST API is available to manage user access to MultiTrans. This includes:

- a. (79635, 79640, 79955) createPM and updatePM to create and update users with profile of Project Manager.
- b) (79636, 79642) createProvider and updateProvider to create and update users with profile of Providers.
- c) (79637, 79642, 79638) createAdmin and updateAdmin to create and update users with profile of Administrators.
- d) (79643) An endpoint to deactivate active users is available.
- e) (79641) An endpoint to updateContact active users is available.
- f) (79645) A new REST API endpoint, listUser, is available to list MultiTrans users, categorized by profile if required. See your instance of Swagger for further details.
- g) (79646) Administrators can be given access to call API endpoints.

Program Updates

- 1. (79631, 79009) When determining productivity, services with no productivity defined will not show as over booked.
- 2. (4795) Added new SSRS report, Productivity Report by Timesheet.
- 3. (58932) In the French Interface, notification templates are now sorted by alphabetical order.
- 4. (61106) When searching multiple TextBases a user can now switch between multiple TextBases.
- 5. (64553, 77762, 78564, 79211, 77761, 77763, 78436, 79359, 80646) Added additional localizations throughout MultiTrans.
- 6. (78305, 78306, 79391, 79279, 79538, 80646, 80717, 80719, 80859) Fixed formatting issues throughout MultiTrans.
- 7. (78812) Added additional WCAG compliance attributes.
- 8. (79793) Updated the wording of the error message when a user tries to update a username of a contact that doesn't already exist.
- 9. (79868) Actual remaining hours is now displayed when selecting a user with an undefined productivity.
- 10. (79743) On the Flow > PM > Administration > List Administration: Currency tab, if the exchange rate field is left empty the currency value is now still saved.

- 11. (79615) When using the Studio Integration, fixed issue of missing spaces following a segment merge.
- 12. (79611) When importing a PPTX all soft returns are maintained.
- 13. (79392) On the Overbooking Reason pop-up, if a user selects "Cancel" all values revert to their previous value automatically.
- 14. (64672) New Business Units that are added now appear in sequential order.
- 15. (68618) On the Task Authorization template, removed the duplicate wording of "cost" for the cost variable.
- 16. (78993) A prompt is now sent if a user is trying to create a new agency when an agency of the same name already exists.
- 17. (78623) On the Request Overview tab, a user can now see when a request was completed by hovering over the status icon.
- 18. (78912) Removed character restriction of title when creating a new request.
- 19. (73562) Resolved bug that was periodically preventing the Project Status from moving to delivered after a customer review as completed.
- 20. (75568) Resolved bug that was corrupting file names containing non-Latin characters.
- 21. (76602) Resolved bug in the Provider CSV export that was not allowing internal providers to be marked as such in the report.
- 22. (78516) Resolved bug that was not allowing for alert messages to appear in the client portal.
- 23. (79010) Resolved bug of the Reference Project Number value not displaying in the Reference Project Number column on the PM Portal.
- 24. (79674, 79693) Resolved bugs stemming from an agency provider being created using the important functionality.
- 25. (79743) Resolved bug of username showing as 'null', when the contact is added in the contact tab while creating customer.
- 26. (79876) Resolved bug of internal providers having to accept/refuses tasks If "Providers must accept/refuse tasks (for External providers)" is selected.
- 27. (80872) Resolved bug of a PM not being able to import an XML file for Providers and Customers.
- 28. (80902) Resolved bug of the Overbooking popup appearing after a PM assigs a provider without a defined productivity and then updates the task delivery date.
