As a content editor or workflow approver, I need to be able to bundle/group components in workflow so I can select multiple components to approve at once instead of one at a time.

## Ability for Non-Admins to Manage Checked-out Items

 Andrew Ross

In Progress on 24 Mar 2022 4 Comments

When working with decentralized content producer teams, having the ability to create groups, scope on those groups, and nest permissions and rights has worked well for us. However, there seems to be some limitations around the checked-out items list and...

## Add a Filename Column to the Structure Group List View

 Robert Curlette

In Progress on 12 Dec 2022 5 Comments

Add a new column to the Structure Group list view that would display the filename next to the Page Title. This is helpful when trying to find the Index Page in a large list of Pages. It is also very helpful when trying to find the Page in Tridion when...

## Publishing process status notification

 Pankaj Gaur

In Progress on 12 Dec 2022 5 Comments

Currently, when we publish any item, after it goes to the publishing queue, we need to Click on publishing queue to open the publishing queue window and then keep pressing the refresh button to see the status of publishing for each item. Can we have...

## Multi-select of activities should be enabled in Workflow Activities

 Chris Chracek

In Progress on 12 Dec 2022 2 Comments

Starting in Tridion 2013, Activities page was introduced. In the Activities page, unlike the Dashboard in 2011, an author cannot select multiple items to perform the same activities on the items selected. This leads to more clicks for the author to do...

## Improve list customizability in the Content Manager Explorer

 Chris Chracek

In Progress on 12 Dec 2022 2 Comments

For all lists in the system, there should be the capability to have enhanced filtering and sorting. The user should be able to filter based upon a certain attribute.

## Quick upload for an image / MMcomponent should allow for multiple files upload

 Philippe Conil

In Progress on 7 Feb 2022 0 Comments

Currently we can only upload a single multimedia item at a time. It would be great to simply allow for multiple files upload and show the percentage of upload completion in the browser status bar.

## A public API to differentiate between the "Assigned Activities Tab" and "Started Activities Tab"

In Progress on 31 Mar 2022 0 Comments

It would be helpful if we have a public API to differentiate between the "Assigned Activities Tab" and "Started Activities Tab" and toggle between them. Currently we have the url "SDL/#app=wcm&entry=activities" which takes the user to "Assigned Activities..."

## Tridion Core Service REST API - CORS Support

# Sites 10 Fall Update Late 2023

# Fall Update - Publication Queue

- New Interface
- Ordering
- Advanced Filtering

The screenshot displays the 'Publishing queue' interface in Tridion Sites. The main area contains a table of publication items with columns for Primary Item, Target Type, Publication, Action, Progress, Priority, State, and State Updated. The '400 Page' item is selected and highlighted in blue. The sidebar on the right provides detailed information for the selected item, including its URI, state, target type, action, primary item, publication, user, and priority.

# Fall Update - Insights Panel

New UI Extension Point for adding an insights panel.

It makes use of the new Extension Framework introduced in 10.

The screenshot displays the Tridion Sites Content Manager interface. The top navigation bar includes 'Tridion Sites', 'Content', and 'Activities'. The 'Content Manager' sidebar on the left shows a tree view with folders like '\_Cloneable Content', '\_Structure', 'Articles', 'Campaigns', and 'demo'. The main area shows the 'Products' list with a search bar, filters, and a table of items. The table has columns for NAME, STATUS, SCHEMA, SHARED FROM, and DATE MODIFIED. The first item is 'LightSolar ...' with status 'Offering' and date '3/1/2021 4:23 ...'. The second item is 'LightSolar ...' with status 'Offering' and date '3/1/2021 4:39 ...'. The third item is 'LightSolar ...' with status 'Offering' and date '7/20/2023 7:4...'. On the right, an 'Insights Panel' is visible with the text 'Insights Panels with custom fields and information' and a 'Date modified' section showing '3/1/2021 4:23 AM'.

NAME	STATUS	SCHEMA	SHARED FROM	DATE MODIFIED
LightSolar ...	Offering			3/1/2021 4:23 ...
LightSolar ...	Offering			3/1/2021 4:39 ...
LightSolar ...	Offering			7/20/2023 7:4...
